

Building the future with you – one startup at a time

BizSpark startups can get FREE cloud credits, software and support for three years. As a member of BizSpark, your startup can:

Get up to \$750 per month of FREE Azure cloud services

Not on .NET? Not a problem. Azure supports most OSS including and Linux, Node.js, PHP, and Python..

Access to Microsoft software and tools

Download developer tools for Microsoft's most popular products optimized for startups.

Developer Store Accounts

Publish your Windows and Phone apps for free for one year

Technical Support

Access hundreds of free training classes, professional technical and product support plus four free phone support incidents.

Azure gets your business up and running in the cloud – Using the tools you know

Create a virtual machine

Azure Virtual Machines enables you to deploy a Windows or Linux VM with a click of a button and run your favorite stack such as Node.js, PHP, Python, Rails, Java, .NET, etc.

Store your data and video

Azure Storage offers non-relational data storage, including Blob, Table, Queue, and Drive storage, powered with a world-class content delivery network (CDN)

Deploy a website or web app

Azure Websites enables you to deploy multiple stacks (PHP, Node.js, or Python) on a scalable and reliable cloud infrastructure without the worry of managing your own infrastructure.

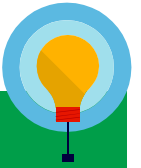

Deploy a mobile app

Azure Mobile Services provides a scalable cloud backend for building cross-platform mobile applications, including Android and Apple iOS.

Take these 3 steps to join BizSpark today

1. Sign Up for BizSpark by visiting www.microsoft.com/bizspark
2. Activate your Azure benefits once approved as a BizSpark startup
3. Access software and support for FREE for the next 3 years

Building the future with you – one startup at a time

Ready to scale? BizSpark Plus is for you

Up to \$60,000 FREE Azure cloud services

As a BizSpark Plus member, your startup can access up to \$5,000 per month of FREE Azure cloud services for 1 year = a total of \$60,000 FREE. And because all BizSpark Plus members are already BizSpark members, you would already have access to Microsoft software and tools, developer store accounts and technical support

Ready to get a bigger piece of the cloud with FREE Azure.

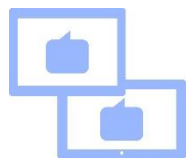

Machine Learning

Future proof your solution using Azure's machine learning algorithms and real-time operational intelligence to build, tune, and validate your models faster than ever before.

Media Services

Use the power of media services to upload, format, store, and deliver rich content such as audio tracks and high resolution video instantaneously in a robust and efficient way in the correct format for iOS, Android, and Windows devices, all around the world

Hub Notification

Quickly customize and send millions of messages to iPhone, Android, Windows or Kindle devices through one channel using this massively scalable notification engine. Go global with the easy-to-use localization templates.

Streaming Analytics

Gain competitive advantage by getting the answers you need faster. Accessing data from home and business sensors, applications, and devices; rapidly search and access the data that you've been gathering.
